

This is a detailed topographic map of the Sierra Nevada region in California, specifically focusing on the area around Kings Canyon National Park and Sequoia National Park. The map is characterized by its intricate contour lines, which represent elevation changes across the terrain. Major geographical features include the John Muir Wilderness to the north, the Kings Canyon and Sequoia National Parks, and the Owens Valley to the east. The map also shows the Sierra Nevada mountain range, with prominent peaks like Mt. Whitney. Key locations such as Independence, Mammoth Lakes, and Bishop are marked. The map includes a grid with coordinates, with latitude ranging from 36° 30' N to 37° 00' N and longitude from 118° 00' W to 119° 00' W. The map is color-coded to show different elevations, with green for lower elevations and brown for higher elevations. The map is a historical or reference map, likely from a series of maps published by the U.S. Geological Survey.
